

Decorate to Celebrate!

Crown your home, school or community space with bunting fit for a queen.

Have fun creating your bunting!

Check out the templates and workshop online and in community spaces to create with Naz, Art Clwb. As part of the Winding House project, with Ziba Creative and community partners.

You will need:

card, (could be an old cereal box) string or ribbon, a pencil and a pair of scissors, a glue stick and tape.

To decorate you could use:

Felt pens/coloured pencils. Have a hunt at home – scrap paper/tissue paper, old newspaper/magazine, foil or anything to add sparkle – kitchen foil, pom poms, paper dollies.

We would love to share and celebrate what you create.

Share your bunting with us and tag Winding House. #DecorateToCelebrate

To make your own bunting:

1. Draw a triangle or cut a trace a bunting template.
Make sure you either leave a flap at the top of the triangle for folding over or pierce a hole either side to hang.
2. Once you have all your bunting shapes cut out, you are ready to decorate.
3. Decide on a colour theme and get creative!
4. Decorate your bunting background using paper and glue or draw a design.
5. Then add shapes and designs ontop of your bunting background.
6. Either fold the flap over, the back to hold onto the string, or pierce a hole either side to thread string through.
7. Then hang up in your window or home to add some colour and joy!

To decorate your bunting:

See what you have at home and recycle materials to make it stand out.

- You can use tissue paper – cutting strips, squares or ripping strips, add glue and layer your colours onto your bunting.
- If you have any old newspapers, magazines or wrapping paper, you could recycle them and create collaged bunting. Using images, words to create abstract designs.
- Draw your own design and colour in with pencils, crayons or felts, or tea!

You could use the design templates to add decoration and shapes to your bunting – add foil, or anything else you have at home to add some sparkle!
